

ULTRA-PERFORMANCE® CLEAR FDA GREASE

CLEAR SYNTHETIC FOOD SERVICE GREASE

BEYOND SYNTHETIC™

Ultra-Performance Clear FDA Grease is a colorless, non-staining, nondrying, biodegradable, aluminum complex H-1 grease. It is NSF certified for use in federally inspected meat and poultry plants. Ultra-Performance Clear FDA Grease meets or exceeds the FDA CFR Title 21 Section 178.3570 purity regulation and is specifically designed for use in the food processing industry where it may have incidental contact with food.

Ultra-Performance Clear FDA Grease contains a bacteriostatic agent to retard bacterial and fungus growth. It is extremely water resistant even after frequent wash downs. Polymer additives provide superior adhesive / cohesive strength to lower friction and protect against high shock loads.

Ultra-Performance Clear FDA Grease is an undyed product.

PERFORMANCE ADVANTAGES

- Aluminum Complex Grease Base**
 Ultra-Performance Clear FDA Grease has an adhesive, non-drip base that provides superior shear stability, water resistance and high temperature performance.
- Multi-Temperature Service**
 Ultra-Performance Clear FDA Grease's synthetic molecules combine both low temperature pumpability and high temperature stability. It is suitable for centralized pressure systems.
- Bacteriostatic Agent**
 Ultra-Performance Clear FDA Grease retards bacterial and fungus growth.
- Increases Food Machinery Life**
 Ultra-Performance Clear FDA Grease contains synthetic ingredients and anti-wear additives.

TYPICAL PROPERTIES*	ASTM METHOD	NLGI GRADE
		1 1/2
Thickener Type (Soap Base)	---	Aluminum Complex
Color	---	Clear to Translucent Light Amber
Consistency	---	Buttery
Fluid Type	---	Semi-Synthetic
Viscosity, Fluid	D-445	
cSt @ 40°C		126
Low Temperature Pumpability, °F	D-4684	15
Drop Point, °F	D-566	500
Copper Corrosion Test	D-4048	1A
Cone Penetration Test, mm	D-217	
Worked		300
Rust Test	D-665	
Fresh Water		PASS
Salt Water		PASS
